

OPERATING THE WIRELESS MICROPHONE

1. Connect the microphone to the wireless Transmitter (marked w/ green T)
2. Turn on both the Receiver (R) and Transmitter (T).
3. Pair both the Receiver and Transmitter:
 - Press and hold the pair button on the Transmitter and both the + and – buttons on the receiver at the same time. Hold until blue lights flash on both.
4. Connect the Receiver to the iPad using the 3.5mm TRRS connector.
5. Clip the Receiver to the iPad Stand.
6. Clip the Microphone on your lab coat and place the transmitter into your pocket on your coat or pants.
7. IMPORTANT: Do a test recording. Stand as if you're facilitating with a visitor and have someone else start a recording. Pretend you're talking to a visitor. Ensure that you can be clearly heard before starting the 45 min recording.
