

Failure in Making: Post-Clip Viewing Survey

Thank you for your participation in the Failure in Making (FiM) project! Now that you've had a chance to review and reflect on your video clips, please take a few minutes to answer the questions below in preparation for our next two group sessions. These sessions will explore pedagogical methods for facilitating around failure by viewing and providing feedback on each other's video clips.

We would like everyone to share a clip where you are effectively facilitating around failure during one of these sessions. Please be prepared to briefly provide...

- some context on the encounter with the guest(s).
- what made this facilitation method effective.
- any feedback you would like from your colleagues.

We also encourage you to share a clip that shows less effective facilitation. Sharing a less effective clip is optional, but this is a great opportunity to ask for specific feedback from your fellow Educators.
